3. Space and booth allocation

- 3.1 CMI shall endeavor to meet the requirements specified by the exhibitor in their application for participation, however, the exhibitor shall not have any legal entitlement thereto or to a specific location within the exhibition area. The exchange of spaces with other exhibitors as well as the provision of the space to third parties shall require the prior consent of CMI.
- 3.2 If a booth or an exhibition space is not occupied in due time, CMI shall be free to otherwise dispose thereof. Fees already paid shall be forfeited; damages or claims based on unfair enrichment of the exhibitor who failed to show up in due time shall be excluded. 6. Technical booth design

- 6.1 The permission to participate in the exhibition subject to the contract shall be bound to compliance with the conception stated in the application for participation (registration form). Fixed constructions shall require an additional permission by CMI, and the erection of such constructions must not be started until such permission is given.
- 6.2 Should the nature of the exhibition so require, CMI shall be entitled to effect a demarcation of the exhibition spaces by means of stable exhibition booths (2.5 m in height, 1.5 m in width). Any passing over the booth walls (including for the purpose of installing company nameplates), the use of the exterior booth walls for advertising purposes and the extension of booths in terms of size shall require the express consent of CMI.
- 6.3 In each case, the exhibitor is to obtain information regarding the maximum load of the exhibition spaces and must urgently comply with those; generally speaking, concentrated loads by heavy objects are to be avoided. Moreover, attention is to be paid to the fact that, in the area of the cable channels and outlets, the load capacity is considerably lower. Possible static measures are to be discussed and agreed with CMI in any event.

- 8.4 If the periods for erection and dismantling are exceeded, the exhibitor shall bear the costs and risk of the resulting consequences.
- 8.5 Following the close of the exhibition, the exhibitor shall return everything to its original condition. In particular, the exhibitor shall remedy any damages to floors and walls which are the result of using artificial tape and nails, etc., within the period for dismantling, and the exhibitor shall carry out any paintwork required in order to restore the condition at the time of handover.

- 15.2 Even in the event of a unanimously agreed cancellation of the participation agreement, the exhibitor shall pay the agreed booth rental in full, unless the cancellation of the agreement is effected 90 days prior to the start of the exhibition and it is still possible to otherwise allocate the exhibition space. In such case, the exhibitor who has withdrawn shall pay administration fees in the amount of 30 % of the agreed stand rent amount as well as the registration fee. In any case, any other direct costs already incurred by CMI in connection with the participation of the exhibitor in the trade fair, must also be paid in full.

General Terms and Conditions (GTC) for Events – Congress und Messe Innsbruck GmbH (CMI)

Without prejudice to statutory provisions and contractual conditions in the individual case, the contract concluded by CMI with the Renter as well as all other verbal and written agreements made as part of event development and implementation are subject to the following "General Terms and Conditions for Events (GTCE)".

I. Basic principles

1. CMI is required to act in accordance with the principles of responsible business practice in an open society. As a provider in the sphere of free competition CMI is free in its decisions to conclude contracts or to decline to conclude them, without even stating reasons.
2. The principles of responsible business practice mean that CMI's fundamental company policy includes safeguarding all the values associated with an open society based on a modern, democratic state under the rule of law. Therefore, CMI does not provide facilities for renters and events with incompatible principles. Discrimination, especially in relation to

gender, origin, skin color, religion or other personal orientations as well as extremist or radical ideology and the dissemination of such ideas are incompatible with the character of the venue as a place for meeting, entertainment, science, business, culture and communication and are not acceptable. CMI does not conclude contracts in respect of events that are incompatible with these principles and reserves the right to make a free decision at any time. This does not require any justification; there is no entitlement to conclusion of a contract in such cases. All other claims are also excluded.

3. CMI therefore also reserves the right in individual cases to declare cancellation of a contract that has already been concluded, cancellation of an event or closure of a trade fair stand for compelling reasons. This is possible, for example, if it becomes apparent after conclusion of a contract that events are to be held or messages are to be disseminated the content of which is contrary to the principles of CMI's company policy or contrary to the stated ethical principles of their shareholders. CMI shall have no obligation to state further details by way of justification of the cancellation. Legal actions for performance of contracts, compensation and other claims resulting from such cancellations shall be excluded. This shall also apply in particular if it subsequently becomes evident when examining contracts which have already been concluded that key information provided to CMI which is required for assessment of an event in accordance with these principles was incomplete or untrue. CMI's further contractual rights of cancellation and other rights shall remain unaffected.
4. If an event that has (party) political content is permitted, renters must ensure that it is organized, prepared, announced and monitored within a framework does not affect other events in the premises of CMI whilst also ensuring that other visitors, suppliers and other persons do not come into contact with the event and its content. Otherwise cancellation of the contract or of the event or closure of the trade fair stand or of the rented object will be possible.
5. The dissemination of political information and advertising material as well as direct or indirect promotion of political parties, associations, groupings, clubs, movements etc. during other events that take place in parallel or outside of the trade fair stands booked and organized by these groups is therefore prohibited in so far as it is not an event organized by one of these groups. Any breach will lead to immediate cancellation of the contract.

II. Conditions of contract

1. Scope of use

- 1.1 The Renter's authorization of use exclusively covers the events subject to the contract and the times and purposes concluded in the agreement. This authorization may only be passed on to third parties to setup stand areas and always requires express consent from CMI.
- 1.2 If no exclusive or overall rent of one or more of CMI's locations is agreed in the contract, flows of visitors and guests can overlap, especially in the foyer, entrance and toilet areas and in relation to the visitor guidance system. This does not constitute an impairment of the Renter's usage rights; claims against CMI based on such circumstances, irrespective of the type and in whose name claims are asserted, shall be excluded.
- 1.3 The Renter shall assess the rented object for proper condition when accepting it, and report any deviations from the conditions agreed in the contract immediately; subsequent complaints shall be excluded and shall not lead to a reduction of the fee.

2. Changes and decorative products

- 2.1 Changes in the seating arrangements or exhibition layouts approved by CMI and changes to the appearance and/or the equipment of the rented object must not be made without authorization. They must be coordinated in advance with CMI and they require agreement of CMI. Any additional costs incurred by such changes shall be borne by the Renter alone.
- 2.2 The escape routes must be kept free at all times. For reasons of safety event spaces, transport routes and other spaces in the event building may only be decorated with plants, garlands, bänderoles, advertising banners, ornamentation, affixed with posters or stickers, and carpets laid etc. by the Renter or third parties by arrangement with CMI and after approval from CMI. Not only are all these measures, referred to hereinafter as "decorative and promotional objects and equipment", affixed at the cost of the Renter, whereby all relevant safety and other statutory provisions apply. They must also be removed and disposed of without damage or residue by the Renter or by a licensed company engaged by the Renter. Any residue and/or damage must be paid for exclusively by the Renter. Items that are not removed by the agreed deadline shall be removed at the cost and risk of the Renter.

3. Security

- 3.1 The Renter shall be responsible for the safety concept of their event and must not only observe all statutory regulations and regulations formulated by CMI in the General and/or Special Terms of Business or Participation, but must also take all measures to ensure that they are implemented. The Renter shall bear exclusive responsibility for compliance with conditions stipulated in notifications from authorities.
- 3.2 If the renter intends to install ceiling suspensions, this must be agreed in good time with CMI and an irrevocable written consent must be obtained from CMI. The renter bears sole responsibility for lawful planning, installation and testing of ceiling suspensions, and is also obliged to contract and hire only licensed companies for such works. The renter must keep the all necessary certificates of competence of the contracted companies and structural approvals to hand, and produce them at any time on request. If some or all of the required documents are missing or in the event of deficient implementation, CMI reserves the right to demand immediate removal at the expense of the renter, and to contract an expert at the expense of the renter in the event of discrepancies.
- 3.3 Open flames and highly flammable liquids or elements are strictly prohibited in all event buildings, including the open-air grounds. Candles, oil lamps etc. may only be used as table decorations with the express consent of CMI. Liquid gas canisters (propane, butane) and other pressurized containers and pressurized bottles are generally prohibited in the building.
- 3.4 The renter must ensure that the battery is disconnected on exhibited vehicles without a main switch. The fuel tank must be emptied to a minimum capacity. In the case hydraulic lifting equipment, a safety sleeve must be attached to the lifting cylinders.
- 3.5 A general smoking ban applies in all premises at CMI's locations in accordance with the statutory regulations. Creation of smoking areas in the external areas is permissible only after express consent from CMI. The Renter is required to comply with the statutory regulations; CMI accepts no liability in the case of non-compliance with the smoking ban.
- 3.6 For reasons of safety no dogs or other animals are permitted in CMI's event buildings. A general exception to this regulation is guide dogs for blind people, and a specific exception, only after express consent from CMI, is specific events, e. g. animal shows. CMI is authorized to eject visitors and guests from the building if they take animals into the client's premises. The Renter must ensure that guests and visitors who attend their event are informed about this. In this regard, CMI accepts no liability and the Renter must indemnify it against all parties.
- 3.7 Fittings, decorative products, devices, backdrops etc. prepared by the Renter may only be erected and used with express consent of CMI. Even in such cases, only objects of low flammability, or objects rendered flame retardant using a legally permitted and state-of-the-art impregnating agent may be brought in or affixed. Highly flammable material (e. g. paper, wood shavings, straw, rush mats, mulch etc.) is generally prohibited; materials for decorative purposes and other objects must be classified in flammability classes B1, Q1 and TR1, currently valid. Decorative and promotional objects and equipment must always be affixed out of reach of the visitors and must be placed in a way that prevents them coming into contact with sources of fire. Without exception, use of any pyrotechnic effects shall only be permitted after prior approval by notification from the Federal Police Department in Innsbruck and substantiated written permission from CMI. In any case, the Renter shall be liable for the legal permissibility of its design intentions.
- 3.8 All safety equipment at the locations, e. g. fire doors, emergency exits, fire alarms, hydrants, smoke and heat detection systems, sprinklers, electrical distributors as well as various other items of technical equipment, e. g., telephone distributors or heating and ventilation systems etc. must be kept freely accessible at all times and must not be blocked.
- 3.9 CMI will inform the Renter about the existence of sprinkler systems in contracts and/or in any applicable Terms of Business or Participation. The Renter must ensure that the operation of installed sprinkler systems is not affected by placement of decorative materials or advertising. Materials may be used for canopies only if they are sprinkler-compatible and only by arrangement with the authority. A party causing damage to the sprinkler system must pay for the damage as well as resultant costs. If the culprit is not clearly identifiable, the Renter shall be liable.
- 3.10 The Renter must deploy specialist qualified personnel only to perform the work. The technical and electrical systems in the rented object must only be operated by employees of CMI.
- 3.11 The Renter is responsible for obtaining the official permits required for the event in good time. CMI reserves the right to cancel the contract or the event if the Renter does not have them. Legal actions brought against CMI for performance of contracts, compensation and other claims resulting from such cancellations shall be excluded. All official requirements must be complied with at all times. In this regard, CMI accepts no liability and the Renter must indemnify it against all parties.

3.12 The Renter must ensure that official supervisory bodies, representatives of the authorities and persons otherwise authorized by CMI can freely access the rented object at any time before, during and after the event.

3.13 If legal provisions are breached, including youth protection laws or the general smoking ban, CMI is authorized to take steps through its own security personnel, and bar guests or visitors from entering its locations again, and/or take other suitable measures, including such measures against employees of the Renter. In the event of gross violations of security-relevant regulations, CMI is authorized to break up or stop the event without delay. Legal actions brought against CMI for performance of contracts, compensation and other claims resulting from such cancellations shall be excluded.

4. Reservations

A reservation or appointment option prior to conclusion of a contract for rooms, areas, payments in kind and/or services shall not give rise to any claims on the part of the Renter. This shall also apply for any costs and outlays for works commissioned by the Renter under their own responsibility on the basis of a reservation by CMI and shall apply in the same way to costs and outlays for the Renter's own works.

5. Breaches of contract relating to the content of events and trade fairs

5.1 If it becomes apparent that a Renter has, contrary to the information provided by them upon conclusion of contract, conducted an event with different content or they offer other objects or services, CMI shall be entitled to cancel the contract with immediate effect, terminate the event or close the trade fair stand.

5.2 Legal actions for performance of contracts, compensation and other claims resulting from such cancellations shall be excluded. This shall also apply in particular if it subsequently becomes evident when examining contracts which have already been concluded that key information provided to CMI which is required for assessment of an event or participation in it in accordance with these principles was incomplete or untrue.

6. Poster prohibition and related matters

6.1 It is in the essential interest of CMI as the lessor that events taking place in rooms in the premises of CMI are announced in a manner commensurate with the character of CMI as the leading events center in Tirol, safeguarding the rights of other persons and legal entities and respecting property rights of third parties.

6.2 The Renter's attention is therefore drawn to the statutory regulations, in particular those of advertising and events law and to the fact that announcements and advertising, e. g. posters and similar items, are not generally permitted outside the areas designated for them. The Renter must therefore make the necessary arrangements so that event-related advertising as well as the external appearance of advertisements comply with legal regulations and take account of the urban environment in a responsible manner. The Renter must also impose these obligations upon advertising companies engaged by them in a suitable manner and draw their attention to the legal consequences of non-compliance.

6.3 A general Poster prohibition applies at CMI's locations. Use of defined advertising areas is possible only by arrangement with CMI and with application of the current price list. The Renter is required to remove, immediately and at their own expense, posters placed in breach of regulations and to pay any costs incurred by CMI through removal.

7. Breaches of copyright

7.1 CMI demands that the legal regulations relating to trademark and design protection, the need to respect and safeguard third party intellectual property rights, copyrights and rights to use work be complied with in every way at all times and without exception by all renters and their people.

7.2 If it becomes apparent that such regulations are breached, irrespective of the reason, CMI shall have the right to cancel existing contracts with immediate effect, to terminate the event or close the trade fair stand, whereby the Renter shall on no account have any claims against CMI. In any case objects and tools associated with the breaches of regulations or which give rise to them must be removed from CMI's locations immediately. If the Renter or their people do not comply with this requirement, an alternative arrangement at their cost shall be permissible. If the number of people breach regulations, all shall have joint and several liability without limitation. In this regard, CMI accepts no liability and the Renter must indemnify it against all parties.

It is the exclusively of each Renter himself to check his legal responsibility to ascertain whether the legal regulations mentioned apply to him and, if so, to make the necessary arrangements. CMI shall not accept any liability whatsoever for legal disadvantages resulting from non-compliance with these obligations on the part of the Renter and shall have no obligation in this connection to provide any type of clarifications. Those responsible shall themselves be responsible in the case of infringements.

9. Remunerations

In any case, the Renter shall pay the costs incurred for this directly to the corresponding bodies.
